Portfolio Intelligence

THE SITUATION

Portfolio companies report on their own schedule, in their own template. The platform team finds out a company is in trouble when the founder says so, which is usually a quarter after the numbers said so.

THE SOLUTION

One platform tracks KPIs and AI initiatives across every portfolio company — growth, efficiency, and burn — and benchmarks company-by-company in real time. The platform team sees who needs help and where.

01 HOW KNTRL WORKS

01

Instrument every AI initiative and data source

02

Monitor impact against revenue and risk in real time

03

Govern with transparent, auditable controls

02 WHY IT MATTERS

- ✓ Every company on one intelligence layer
- ✓ Growth, efficiency, and burn in real time
- ✓ Benchmark performance company-by-company
- ✓ Spot risk before the board meeting

KNTRL provides the cross-portfolio intelligence and benchmarking layer.
